Description

Our range of 450mm and 600mm deep Flat pack Wall Cabinets is the perfect solution for installing data, security and AV equipment.

These cabinets have been designed for speed of assembly and installation.

The wall-cabinets have a removable back panel for mounting on uneven walls and a Quickfit hanging bracket for ease of installation.

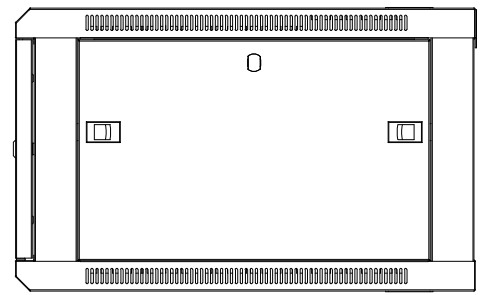

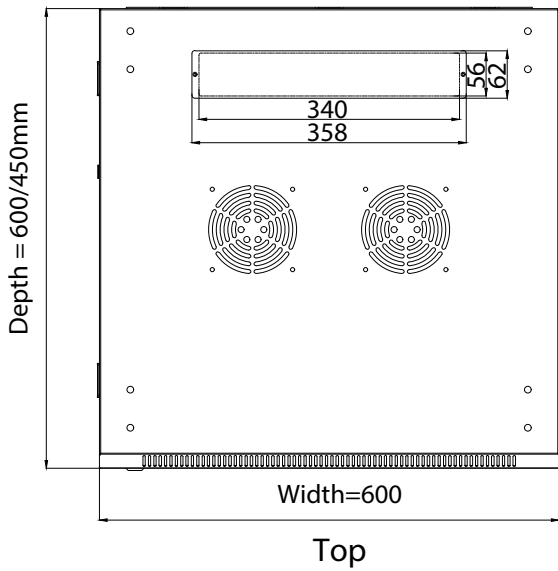

With modern functional aesthetics, these cabinets will perform functionally in any application.

All screws and fixings to assemble the cabinet are supplied and they also comes supplied with 20 cage nuts and screws.

Tools required: Philips Screwdrivers and allen keys
